

Please don't take XM away! It's the best thing thats happened in a very long time. To enjoy the music and the weather stations without all those scenseless ad's is is a dream come true. I get enough ads on my T.V. So those big advertisers don't have to worry about me missing anything their trying to sell. No where else can one go from all the great music they play, to the weather, then catch a few laughs on their comedy channels any time they choose. You tell me?? I urge you to reject the NAB"S petition 04-160 and please support XM Radio.

I SUPPORT MY XM SATELLITE RADIO STATION!!!      A very satisfied subscriber!!
